UNFINISHED BUSINESS

1. Review, discussion, and possible action on definition and sections for temporary and accessory structures.

Village Planner Fonseca presented the most recent changes to the ongoing revisions of the temporary structure definitions and ordinances since the April Plan Commission meeting. Discussion took place by the Plan Commission regarding the existing permitting process, timeframe, fees and regulation of dumpsters.

Administrator Goeckner and Zoning Administrator Grotelueschen briefed the Plan Commission on the existing permitting, fee and enforcement procedure and upcoming changes to streamline the process for the Village and citizens.

After further consideration and discussion of polystructures, Chairman Sackett suggested the topic be brought to the Village Board to make a determination for allowing polystructures in the community. Further consideration will be given to polystructures by the Village Board at a later date.

Plan Commission will be reviewing draft language for accessory structures in greater detail in the month of May. This review will be reflected in new draft language presented at the June Plan Commission meeting.

Plan Commission comments should be returned to Planner Fonseca by Monday, May 25th.

No Action.
